ISIN LU2850665907

OBJECTIVES & INVESTMENT POLICY

The Sub-fund intends to invest at least two thirds of its net assets in equity and equity related securities issued by companies that are domiciled in, or which derive the predominant proportion of their revenues or profits from India.

The Investment Manager will seek to identify key macro trends in India based on multiple factors such as (but not limited to) the stage of evolution, government policies, geopolitics, industry dynamics, company fundamentals, financial market conditions, and behavioral biases. The Investment Manager will select sectors and underlying companies which can capture the above trends with favorable risk versus reward criteria.

The Compartment is actively managed. The Compartment has no benchmark index and is not managed in reference to a benchmark index.

MARKET COMMENTARY

Prana India Equity Fund was up 3.5% in USD terms in February. Most sectors contributed positively, led by Industrial and Consumer Staples, while Real Estate and Information Technology were the only two sectors that detracted from performance. As the Middle East war started, we preserved capital by raising cash levels 200 bps, cutting holdings to 30, and adding two resilient stocks. Fundamentally, three agriculture initiatives—a Central Bank Digital Currency food coupon pilot, direct fertilizer subsidies tied to soil data, and AgriStack databases—signal a transformative blueprint for efficiency, and the fund is well positioned in the agriculture sector.
