OBJECTIVES & INVESTMENT POLICY

The Sub-fund intends to invest at least two thirds of its net assets in equity and equity related securities issued by companies that are domiciled in, or which derive the predominant proportion of their revenues or profits from India.

The Investment Manager will seek to identify key macro trends in India based on multiple factors such as (but not limited to) the stage of evolution, government policies, geopolitics, industry dynamics, company fundamentals, financial market conditions, and behavioral biases. The Investment Manager will select sectors and underlying companies which can capture the above trends with favorable risk versus reward criteria.

The Compartment is actively managed. The Compartment has no benchmark index and is not managed in reference to a benchmark index.

MARKET COMMENTARY

Prana India Equity Fund was down 9.5% in USD terms in March. The escalation of the Middle East conflict led to the sharpest market and fund declines since the COVID period, exacerbated by the depreciation of the Indian rupee. The war has brought energy security issues to the forefront, and the fund is well positioned to benefit through its holdings in ONGC, Coal India, Balrampur Chini, and Reliance Industries. Additionally, heightened attention to food security and disruptions in the global fertilizer supply chain have supported the fund's position in RCF.
